To Whom It May Concern:

It gives us great pleasure to write this letter regarding Creative Movement and Dance. CMD has been a part of our school for over a decade now. The CMD staff members are always on time, professional, and they offer structured classes for our 3-5 year old students. The programs they offer (pre-ballet, ballet/tap and soccer champs) are a wonderful ways for our students to grow physically and socially. We encourage each parent to sign up for the programs CMD has to offer.

Creative Movement and Dance programs are geared for the young child. The lessons are creative and the children have all had very positive experiences improving their confidence and athletic ability. CMD is very dedicated to the children and their families. We are happy to partner with them in offering our students a well rounded educational experience. They help each child to feel special and experience success.

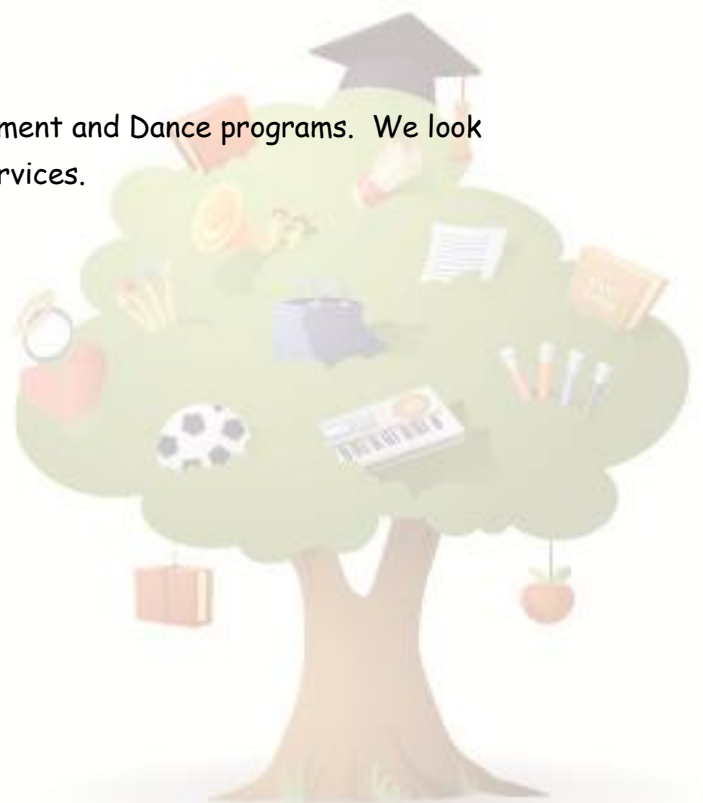

We would highly recommend the Creative Movement and Dance programs. We look forward to many more years employing their services.

In His Service,

Angel Schieber

Director

Kids Crossing Learning Center
