

To Whom It May Concern:

Sugar Hill Day School and Sugar Hill Christian Academy have used Creative Movement and Dance as a provider of after school enrichment classes for our students for four years. We have been extremely pleased with their instructors and classes. Their classes are usually full and we have had some students take their classes year after year. Parents tell us how much their child loves their class and their teacher.

The teaching staff is excellent. The instructors are talented individuals who love children. It shows in the way they conduct the classes. Our students are always eager to attend class. The students and teachers work hard all year in preparation for the end of year program. The program is always a tremendous hit with parents. The children look adorable and it is impressive to see how much they have learned over the year.

We look forward to having a long working relationship with Creative Movement.

Sincerely,

Beth Compton
Superintendent
